## DETAILED ACTION

### *Response to Amendment*

1. Applicant's amendment was received on 2/18/04, and has been entered and made of record. Currently, **claims 12-19, 31-38 and 40** are pending.

### *Allowable Subject Matter*

2. Claims **12-19, 31-38 and 40** allowed. These claims will be renumbered as 1-17.

3. The following is an examiner's statement of reasons for allowance:

Independent claims 12, 31 and 40 define a facsimiles system for facsimile transmission over a packet network, wherein after receiving a first page of facsimile data from a sending terminal, the facsimile gateway transmits a confirmation signal to the sending terminal without waiting for confirmation from the receiving end of the call. After the second page, however, the gateway waits to receive confirmation that both the first and second pages were received before notifying the sending terminal of successful transmission.

The most relevant prior art Chimura et al. (U.S. Patent No. 6,335,803) and Scott (U.S. Patent No. 6,339,481) do not teach the method for awaiting the first and second confirmation packets, and sending a notification from the gateway to the sending terminal responsive to the first and second confirmation packets.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**
